Inside the Box

- 1 X smartBONDH
- 1 X USB-C Charging Cable
- 1 X User Manual
- 1 X Certificate of Conformity

smartBONDH: redefining water droplets

3-minute magic purification

Count to 180 while our UV-C sterilization offsets all harmful bacteria and viruses. Sip fresh and clean, odor-free convenience at every instant.

Intelligent hydration

Stay actively hydrated by activating the 90-minute drinking alarm to ensure a good intake of fresh and clean water.

Know-it-all

Keep yourself ahead of the liquid's extreme conditions by knowing its state inside the smartBONDH. No more burnt tongues or sore throats.

Reliable vacuum insulated stainless steel

Resilient double-walled, electropolished stainless steel keeps your water hot for 24 hours and cold for 12 hours.

USB rechargeable

Fueled by a rechargeable lithium-polymer battery, with having maximum life of 1-month and conveniently recharges with the most universal USB-C cable.

Each mood has a color

Beautifully crafted colors that display smartBONDH's status, adding smart aesthetics to your drinking game.

Drink smartly with a few simple taps

Tap the home button to wake up smartBONDH. Once awake, smartBONDH will display the temperature of liquid inside.

Hold the home button for 2 seconds to activate magic purification - UV sterilization filters 99% of bacteria.

Double Tap the home button to activate 90-minute intelligent hydration.

Smart aesthetics for your smart droplets

Water is **Cold** when
0~37 °Celsius.

Water is **Room Temperature**
when 37~61 °Celsius.

Water is **Hot** when
61~99 °Celsius.

smartBONDH is
Self-cleaning.

smartBONDH is
Reminding to Drink.

smartBONDH is
Charging.

Specifications for Nerds

Charging voltage: **5V**

Charging current: **0.4A**

Charging time: **3 hours**

Battery capacity: **800mAh**

Battery Life: **30 Days**

Battery Counts: **60 times**

Insulation: **Double-Walled**

Smart Thermos Holding -

Hot water up to 24 hours

Cold water up to 12 hours

Capacity: **500ml**

Material: **316 Stainless Steel**

Weight: **10.3 ounces**

Size: **24.5 x 7 x 5.8 (cm)**

UVC wavelength: **260~280nm**

Type-C USB Charging Port

Warnings and Cautions

-  Please read your smartBONDH instruction manual thoroughly prior to use. Improper operation may cause personal injury or damage smartBONDH.
-  Your smartBONDH contains waterproof materials and precision components. Do not tamper or disassemble them.
-  Your smartBONDH bottle and cap should be used exclusively together. Do not use or turn on the bottle cap with an alternative bottle. The cap should only be activated once firmly screwed on to your smartBONDH.
-  If your smartBONDH or any component of it malfunctions or fails to perform as expected, stop using smartBONDH immediately. Do not open or attempt to repair your smartBONDH or any of its components.
-  For complete safety and efficacy, you should not attempt use of the UV purification system with bottles other than the smartBONDH. The efficacy of the UV water purification has only been tested with the smartBONDH. smartBONDH cannot guarantee the UV's effectiveness when used with alternative bottle designs that have not been fully tested or evaluated.
-  Ultraviolet radiations can be harmful to your skin and eyes. Do not look directly at the UV light.

-  The UV-C light is a high voltage device. Do not open, expose, modify or touch internal circuitry as this can lead to high voltage shock. Removal or tampering with the electronic circuit board of UV-C light assembly may cause injury or damage to the user or smartBONDH, and will void all warranties.
-  To prevent danger or shock hazard, keep and store smartBONDH away from rain or liquid. Do not use the charger near water: for example, near a bathtub, washbowl, kitchen sink, laundry tub, or swimming pool.
-  Clean the outside of smartBONDH with a clean, moist cloth. Never use any strong cleaning sprays or fluids, or similar chemicals on smartBONDH .
-  Do not remove smartBONDH's cap while a purifying cycle is in progress. If the cap is removed during a purifying cycle without first canceling, smartBONDH's automatic safety protocols will cancel the cycle and turn off the UV-C light to avoid any harm from contact with UV light to eyes or skin.

Important!

smartBONDH is not suitable or intended for use by children. smartBONDH contains small parts and may otherwise be hazardous to children (under 3 years old). Keep smartBONDH and any dangerous equipment, including those using batteries, out of the reach of children.

Your Bottle. Your Impact.

100% of our profits are reinvested into innovative clean water projects by Bondh-E-Shams INC.

Every \$2 gives clean water to one person for a full year using the Solar Water Box - a turnkey, transportable water filtration system.

BONDH E SHAMS

THE SOLAR WATER PROJECT

Bondh E Shams (Urdu for “water droplets from the sun”) started in 2014 as a water-tech charity, with a vision to end the global water crisis in our lifetime. Since then, we have served more than 50 million cups of clean water to last-mile communities around the world.

Awards and Recognition

These include off-grid villages in Pakistan and South Sudan, war-affected regions in Yemen and Afghanistan, and the Rohingya refugee camps in Cox's Bazaar, Bangladesh.

Bondh-E-Shams clean water projects contribute to the following UN Sustainable Development Goals:

03

Good Health & Well Being

07

Affordable & Clean Energy

06

Clean Water & Sanitation

13

Climate Action & Benefits

With this smartBONDH purchase, you have become part of the fight for a better tomorrow by funding more life-saving water projects.

As a special treat, we have developed a unique Impact Tracking Portal that allows our donors to visualize and track their impact in real-time.
